INFORMATION

ABOUT XYZ MAPS

We have over twenty years' experience of working with postcode data and postcode maps, including creating our own UK Postcode Boundary data. We provide a one-stop service for everything from Postcode Wall Maps to interactive Web Maps, Royal Mail postal address data (PAF), boundaries for Geographic Information Systems, and specialist analyses such as creating balanced sales territories.

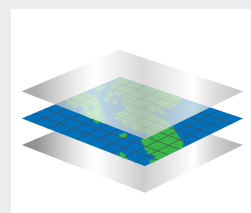

XTREME ACCURACY™

Over the last few years our team has re-drawn all the Postcode Boundary lines for Great Britain using the latest available high resolution air photography. This means our boundary data and maps created from it are accurate to about 1:10 000 scale, so down to street level. The boundaries follow real features on the ground such as hedgerows, streams, roads, garden fences, etc while ensuring the correct addresses fall into each Postcode Sector. This is a very high resolution product. For a more detailed explanation see the web site.

TYPES OF MAP

Plastic coated or paper wall maps, a traditional wall map, an image, a PDF, a fully editable GeoPDF (Adobe Illustrator vector graphics file), or a map to view on your phone or tablet.

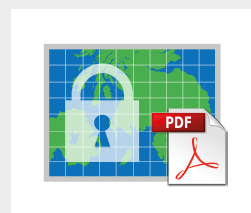

PLASTIC COATED MAP

Maps are encapsulated between two sheets of clear plastic, which protect your map from creases, folds and tears. You can use a marker pen (not permanent ink) and wipe off.

GIF IMAGE

An ideal format for web use as our digitally created maps given a small and compact file size. A GIF file is a 256 colour image. Our images are saved as 300 dpi, which is print quality. Most software can use a GIF image and they can be manipulated in Photoshop, Word, Powerpoint, etc.

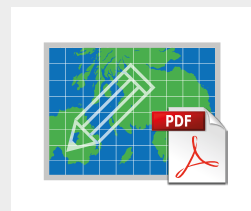

NON-EDITABLE LOCKED PDF

This is a normal Adobe PDF compatible with Acrobat / the Adobe Reader Version 6 or above. It can be viewed and printed at full publishing quality resolution. The file is not editable, but you can add notes and comments in the Acrobat Reader.

Our maps are also available for your phone or tablet using the Avenza Maps app. The app is free for personal use and can be downloaded from iTunes or Google Play. Use the in app shop to buy the map you want. There is a small annual fee to use the Avenza Maps app commercially – see the web site.

EDITABLE GEOPDF

A GeoPDF contains the same quality map as the Locked PDF, but it is fully editable in Adobe Illustrator and contains the enhanced attributes of a full GeoPDF. There are map layers that can be turned on or off in the Adobe Reader, searchable attributes and a Latitude / Longitude co-ordinate system to show where you are. For Postcode Maps the attributes will be the Postcode Areas, Districts or Sectors in list form with counts of the number of Business, Residential and Large Users in each one. See the web site for an explanation of how to use a GeoPDF (and the Readme is included with each download product).

If you want to edit a map to add your own sales territories, colour up postcode areas, or similar then you need the Editable GeoPDF.

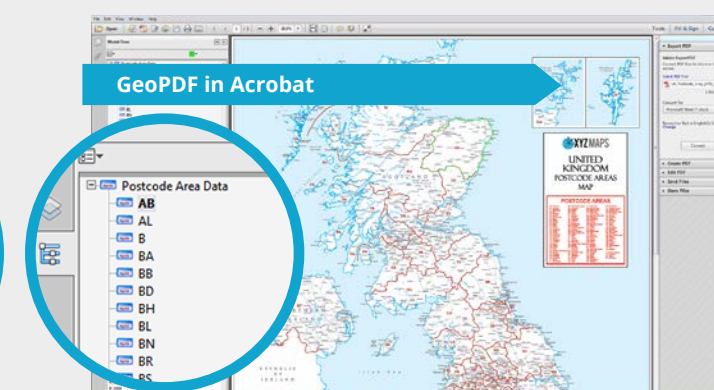

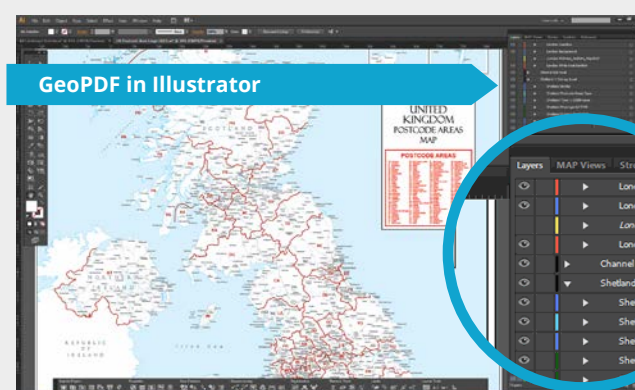

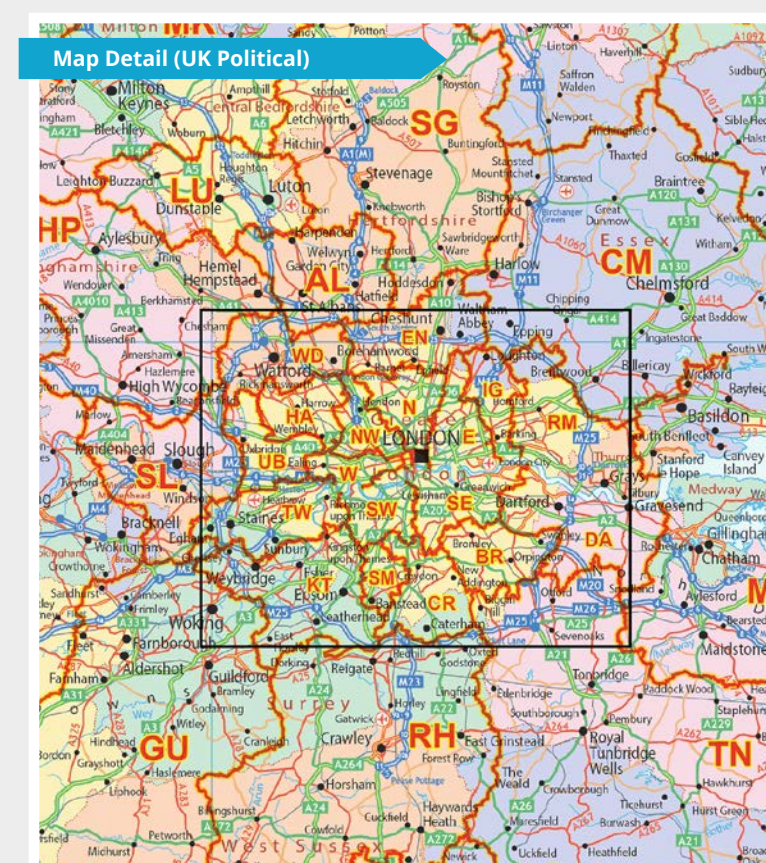

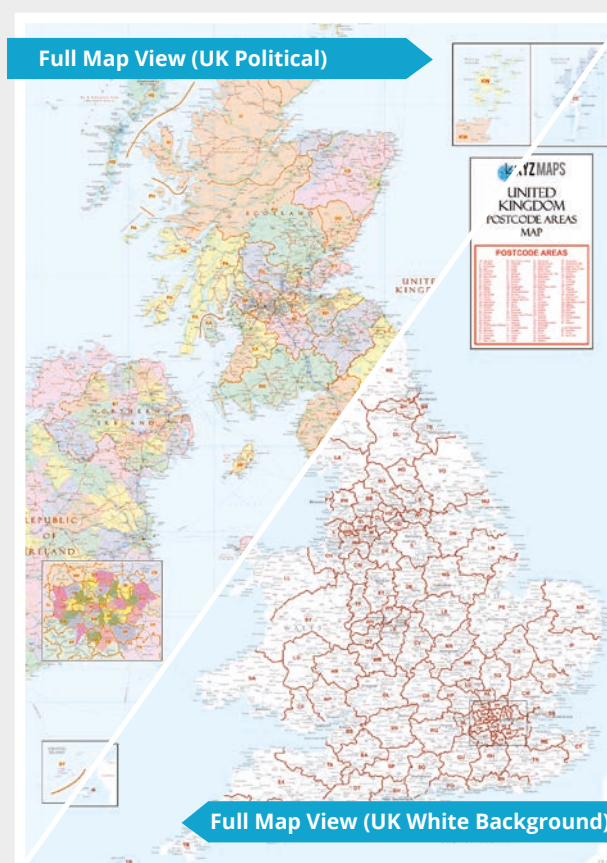

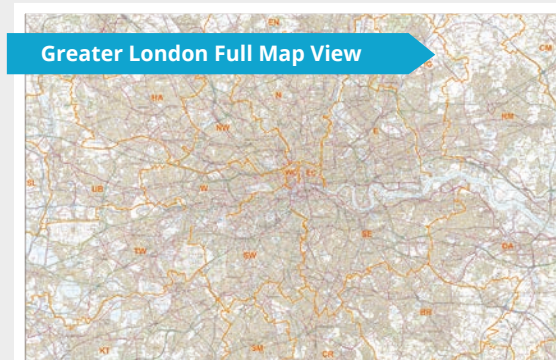

sales@xyzmaps.com

POSTCODE AREA MAPS

Postcode Areas are the top level of the UK postcode system, e.g. EH. There are 124 Postcode Areas that cover Great Britain, Northern Ireland, the Isle of Man, Jersey and Guernsey. Our maps are the ideal starting point for planning national Sales & Marketing, franchises, and similar.

AVAILABLE AREA MAPS

GREATER LONDON (A0)	AR1
LARGE UK POLITICAL (1000 X 1414 MM)	AR2
LARGE UK WHITE BACKGROUND (1000 X 1414 MM)	AR3
SMALL UK WHITE BACKGROUND (A1)	AR4

POSTCODE DISTRICT MAPS

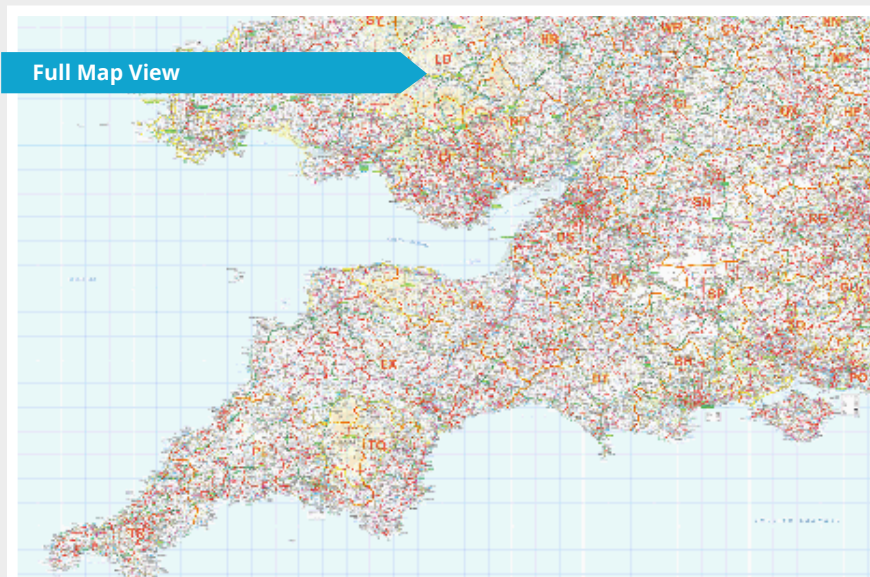

sales@xyzmaps.com

These are all A0 size (1189 x 841 mm) except D8 and D11 which are 2A size (1189 x 1682mm). The GIF image editions are 300 dpi (14,044 x 9,934 pixels). Postcode Districts are the second level, for example EH22. The Postcode Areas are divided up into approximately 2,000 Postcode Districts. For added clarity all of the A0 size sheets can be printed at double size to give a 2A map.

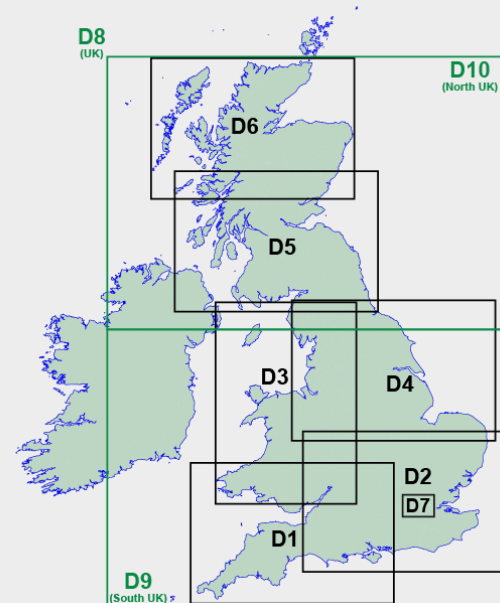

AVAILABLE DISTRICT MAPS

SOUTH WEST ENGLAND	D1
SOUTH EAST ENGLAND	D2
WALES & NORTH WEST ENGLAND	D3
NORTH ENGLAND	D4
SOUTH SCOTLAND	D5
NORTH SCOTLAND	D6
GREATER LONDON	D7
UNITED KINGDOM (POLITICAL BACKGROUND)	D8
ENGLAND & WALES (UK SOUTH)	D9
SCOTLAND (UK NORTH)	D10
UNITED KINGDOM (WHITE BACKGROUND)	D11

POSTCODE SECTOR MAPS

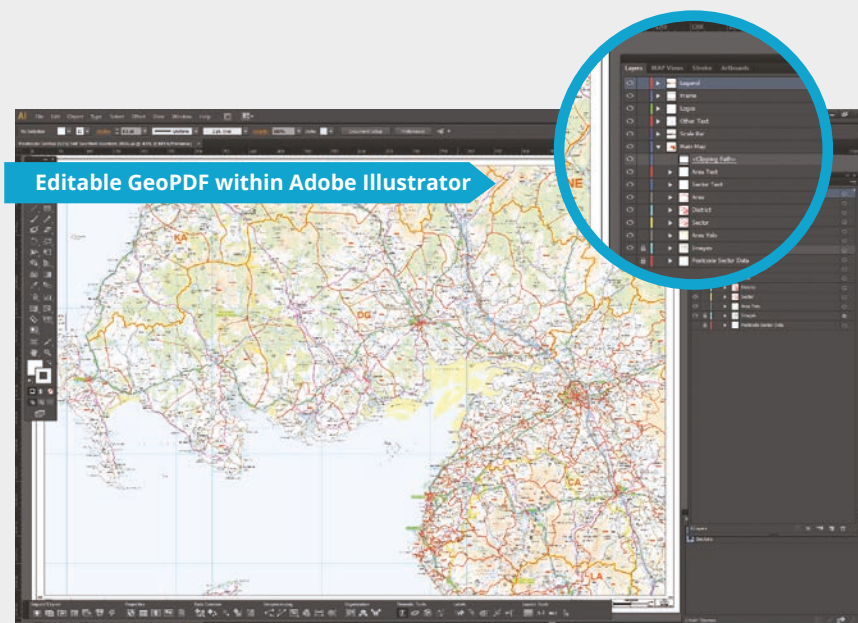

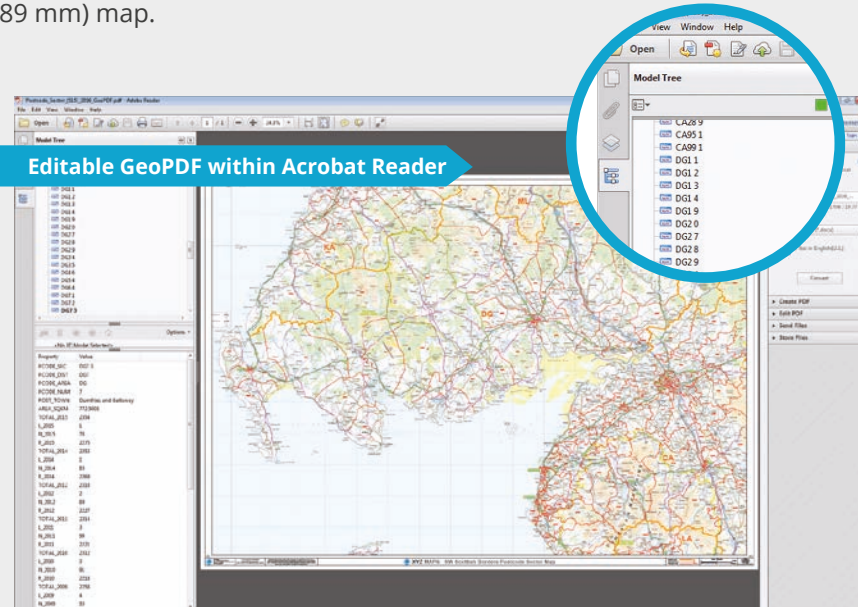

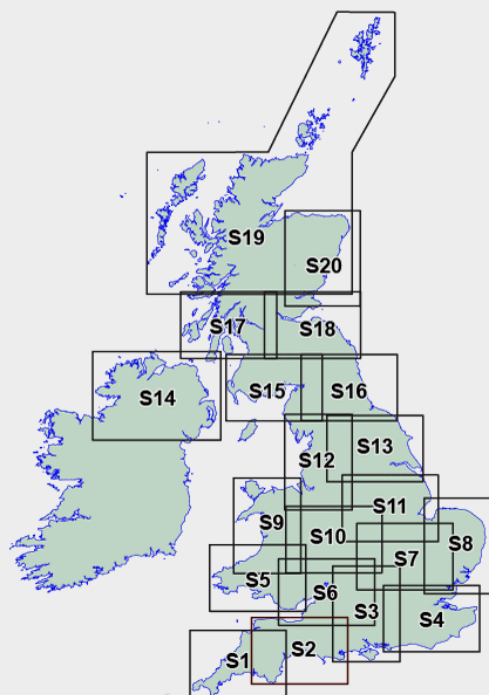

sales@xyzmaps.com

Postcode Sectors are the third level in the system, so the number after the space in the Postcode (e.g. EH22 2). There are nearly 11,000 Postcode Sectors.

The series uses a clear Road Atlas base map at a scale of 1:150 000 (except S19). For added clarity the A0 size (1189 x 841 mm) sheets can be printed at double size to give a 2A (1682 x 1189 mm) map.

AVAILABLE SECTOR MAPS

SOUTH WEST ENGLAND	S1
DEVON, DORSET & SOMERSET	S2
CENTRAL SOUTHERN ENGLAND	S3
SOUTH EAST ENGLAND	S4
SOUTH WALES	S5
SEVERN ESTUARY	S6
EAST MIDLANDS	S7

OTHER POSTCODE PRODUCTS

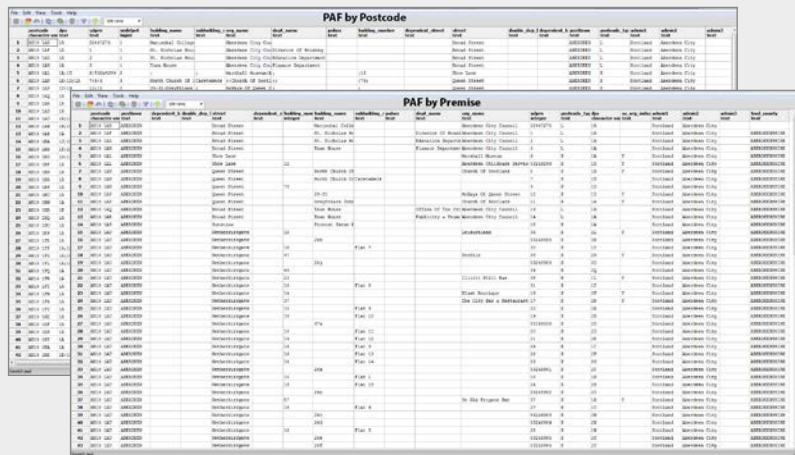

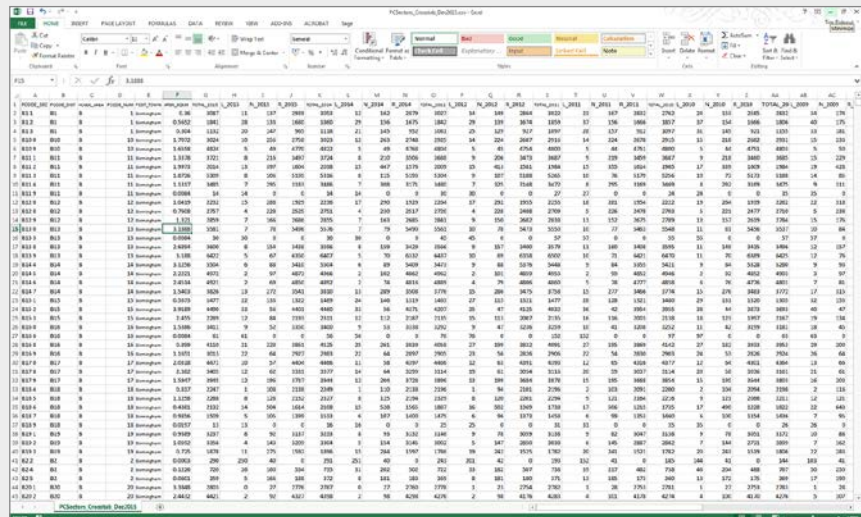

sales@xyzmaps.com

Postcodes are integral to almost all aspects of Sales & Marketing, Franchising, etc. Whether you need postal address lists for marketing campaigns, postcode locations for geocoding customer records, postcode boundaries to use for creating franchises / territories, data of use in Geographic Information System (GIS) analyses, or just how many leaflets you need for a particular area then we can help!

POSTCODE DATA

ROYAL MAIL PAF® FILE

Used by thousands of major companies and Government organisations, this is the definitive list of UK (plus the Isle of Man and Channel Islands) postal addresses. There are over 29 million addresses classified into Residential, Non-Residential and Large Users. Royal Mail include the organisation / company name where known, but no personal names. We supply our 'By Premise' listing of 29 million records and our summary 'By Postcode' listing of about 1.8 million records. All licenses are Annual and based on the number of users. We also offer a Quarterly Update service.

POSTAL ADDRESS COUNTS

Available at the Postcode Area, Postcode District or Postcode Sector level, this convenient spreadsheet will tell you how many Residential, Non-Residential and Large User addresses there are for each year since 2004 (apart from 2013). Ideal when you need to know how many leaflets you need for a mailing, the size of a potential franchise area, or even to identify area of rapid growth in the number of households.

	A	B	C	D	E

POSTCODE BOUNDARIES FOR GIS

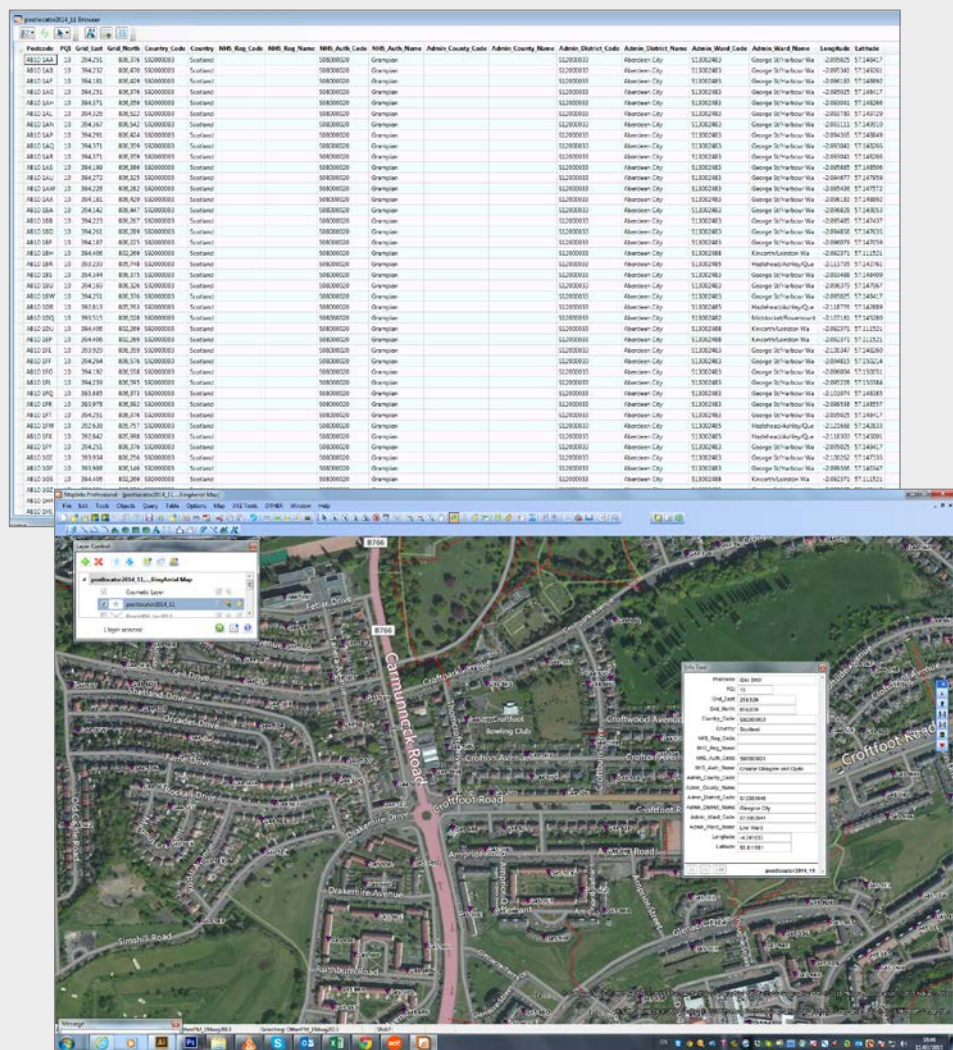

Our Xtreme Accuracy (tm) postcode boundaries are available in a range of popular formats including ArcGIS Shape files, MapInfo tab files and Google KML files. You can choose either a lower cost annual licence or a one-off payment permanent licence giving you full flexibility.

The boundaries provide the essential building blocks for creating sales territories or franchise areas, for thematic maps of sales, and a myriad of other possible tasks.

POSTLOCATOR™

When you need to know where each postcode is located on the ground then this product is ideal. We provide National Grid Eastings and Northings as well as Latitude / Longitude (WGS84). We also include Names and Office of National Statistics codes for the NHS Region, English Clinical Commissioning Group (CCG), NHS Health Board / Zone, County and District, and the Local Authority Electoral Ward.

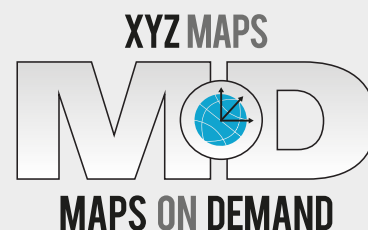

Available as either comma delimited text, or as MapInfo / ArcGIS point map layers. The latter are ideal for Geocoding any address lists (e.g. customers) that you have.

POSTCODE MAPS ON DEMAND

sales@xyzmaps.com

Design your own custom map, including Postcode Maps, Health Maps, World Maps, Historic Maps, Satellite Image Maps and much more. There is a large selection of styles, and not just from the XYZ Maps range, but many other leading publishers including National Geographic Maps.

What could a custom map do for you?

- ✓ A postcode map to cover your specific sales area, letting you plan your strategy to increase revenues.
- ✓ A novelty present of an historic map of your area.
- ✓ An extract from the World Map on which to plot your travels.
- ✓ A PDF map to load onto your 'phone or tablet using the free Avenza Maps app, and much more.

You select the map style (e.g Historic UK Map, Postcode Map, World Map), you choose the area to cover, and you choose the size and format. We make the map to your instructions and deliver it to your door, or e-mail the download link. Full money back guarantee if you are not satisfied with the result.

STEP 1:

Visit www.xyzmaps.com and go to Custom Maps > Maps on Demand.

STEP 2:

Pick a main category such as Business Maps and if desired narrow the choice by selecting a sub-category such as Administrative Boundary Maps.

STEP 3:

Click on the specific style of map you want, for example a Postcode Sector Map. Then when the options for this map display choose the Material (e.g. plastic coated map), and the Size (e.g. A0).

STEP 4:

Click on the Customise this Map button

CUSTOMISE THIS MAP

and zoom in / out and drag to get the correct area (or search for a place), enter the map title.

STEP 5:

Add your map to the Shopping Cart, complete your purchase, and your map will be delivered to you (or you will be sent a download link for PDF format orders).
